has a reputation wide as the world, for curing one was passed. House adjourned till Monday class of disorders that afflict mankind-a reputation too, which it deserves as the best antidote we possess for screfulous complaints. But to be brought into use, its virtues must be concentrated and combined with other medicines that increase its power. Some reliable compound of this characacter is much needed in the community. Read the advertisement of Dr. Aven's Sarsaparilla in our columns, and we know it needs no encomfum from us to give our citizens confidence in what he offers, Organ. Syracuse, N. Y.

It is a common observation that there are more sufferers from debility, among Americans than can be found among any other civilized nation. The reason is obvious. We take too little exercise and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a topic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED "BITTERS." The week and nervous denizen of the counting house, the exhausted toiler upon the shop-board, and the prestrated student of the midnight lamp, have found a wonderful regenerator is the " Bitters," and prefer it to more pretension but less efficacious medicines. But it should no be forgotten that the agent which is so magical in Its influence upon a frame which is merely debillted, is equally powerful in assisting nature to expel the most terrible forms of disease.
